

Doug's File Handling Actions

A set of actions the contributors Doug Bardell uses in everyday Photoshop operations. Some of these you'll want to use as-is, others you may want to modify. Contents include:

- 20 D jpgs, horizontal and vertical
- Pre-printing adjustment
- 16 bit>8 bit conversion
- Rotate image V>H Vertical
- Convert to JPG low resolution, both horizontal and vertical
- Katrin's fill flash
- Flatten framed image
- Framed border
- Overlay
- Prepare for printing (needs modification to your own file locations)
- Infrared
- Sharpen in LAB
